

The West Sussex carers website needs your help!

Do you look after someone who is disabled, frail or has a long-term illness?
Do you enjoy searching for information on the internet?
If you do, you may be able to help other carers in West Sussex.

The Editorial Team for the West Sussex carers website
www.westsussexcarers.org.uk would welcome comments
about the website from carers just like you.

The Editorial Team meets twice a year to discuss the
development of the website. You would be welcome to join us
either occasionally or regularly. We'll cover your travel
expenses and any respite costs incurred.

If you're not able to attend an Editorial Team meeting you could send in comments
by email so that these can be brought to the meetings.

If you would like to know more please call Liz Hall on **01903 777603**, or email to
col@icis-info4life.org.uk

The West Sussex carers website is managed by ICIS on behalf of West Sussex
County Council.
